WHITE PAPER

ABOUT THE GROOBIT

Groobit is involved in Public Services since last many years, till now we were working on Goods and Services but in the last few years we realized that now the time has come to work in Block Chain

Inspired by this, **Groobit** has been related in January 2023 from Russia with the goal of being a decentralized project. Pobeda World mission is to bring popular cryptocurrency concepts into the mainstream. Unlike older, comparable projects, Pobeda World introduces holders to next-generation concepts such as participatory rewards, NFTs, decentralized exchanges, and more.

ABSTRACT

GroobitWorld is a decentralized exchange (DEX) designed with custom functionality, enabling users to trade any token for another directly with each other — without any centralized point of failure.

Our ecosystem includes:

CRATE NFT Marketplace – Stake your GroobitWorld tokens to earn exclusive NFTs, created by talented artists through community contests. These artists receive rewards from the GroobitWorld staking pool.

GroobitWorld Wallet Tracker – Monitor your staking rewards, contest prizes, token valuations, wallet balances, and overall GroobitWorld activity, all in one place.

MULTI-ASSET SUPPORT

The GroobitWorld team brings strong expertise in managing and organizing diverse asset classes within a unified, comprehensive platform. Our advanced, professionally engineered architecture enables real-time exposure tracking and monitoring of tokens, supporting effective risk management strategies.

We also provide durable, reliable, and uninterrupted connectivity to dealers, exchanges, and custodians—ensuring a seamless and secure trading experience.

GroobitWorld
Powering the Future of the Digital Economy

As we move toward a future shaped by blockchain technology and diverse payment systems, GroobitWorld stands out as a secure, efficient solution for managing and storing all your digital assets.

At GroobitWorld, our mission is to empower the digital community by providing users with complete control over their assets. Through our permissionless, peer-to-peer transaction model, users can conduct any type of transaction with full autonomy and security.

Why GroobitWorld?

Simplified Blockchain Payments
Our goal is to make blockchain-based payments simple, fast, and transparent, making businesses more efficient and trustworthy.

Decentralized Exchange Capabilities
GroobitWorld offers a secure and rapid way to manage and trade all categories of crypto assets. By leveraging the strengths of a decentralized exchange, we eliminate the common limitations of centralized platforms using our own blockchain technology.

Expanding into Digital Content & Entertainment
GroobitWorld goes beyond finance. We're integrating blockchain into:

Content Creation & Distribution
Supporting the production, promotion, and circulation of digital content — with active engagement from creators, consumers, and influencers.

Cryptocurrency is a Perfect Investment

www.groobitworld.com

Fair Profit Sharing
Profits generated through this ecosystem will be fairly distributed among contributors as rewards or dividends based on their level of participation.

Multi-Platform Integration
Our ecosystem includes incubator services for social media, digital content stores, and entertainment projects — all powered by GroobitWorld tokens.

We launched the **alpha version of our social media platform on STEEM** for initial testing. The upcoming **beta release will operate fully on our blockchain**, enhancing liquidity, transparency, and reducing transaction costs.

TRUST

Trust is the cornerstone of the cryptocurrency market. At GroobitWorld, we prioritize complete transparency — not just in community engagement and project development, but also in our security practices. To uphold this commitment, we conduct rigorous third-party audits of our code and permanently burn liquidity tokens to significantly minimize the risk of malicious activity.

ECOSYSTEM

Empowering Participation Within the GroobitWorld Ecosystem

GroobitWorld enables fair and transparent compensation for a variety of activities within its protocol-driven services. Users can access detailed information about supported projects and donated content, ensuring full transparency and offering opportunities to engage in community decision-making.

Key Features Include:

❑ **Direct Global Marketing:** Target international content consumers to enhance reach and engagement.

❑ **User-Generated Content:** Collect user reviews and promotional video content to support marketing efforts.

❑ **Global Content Marketplace:** Sell digital content on GroobitWorld's global store at minimal fees.

❑ **Funding Support:** Secure production costs through community support events and collaborations with other participants.

Applied Technology

GroobitWorld is launching an alpha version of its blockchain-based social service to accelerate practical development and user adoption. This early release will allow the team to test core functionalities, gather insights, and integrate feedback into the upcoming beta version

ECOSYSTEM

The alpha will showcase

❑ Fast response times

❑ High Performance

❑ A stable and low-cost transaction system

These features are designed to support large-scale users efficiently, aligning with GroobitWorld's vision for a global service platform.

Optmized Blockchain Infastructure

GroobitWorld Protocol is built to deliver a seamless experience for services and enterprises targeting mass adoption. It offers:

❑ Speed and scalability on par with traditional web and mobile applications

❑ Minimal transaction fees

❑ A trusted alliance of partner companies ensuring a reliable ecosystem and continuous user growth

ROADMAP

(2022) the Beginning

Q4

- Project Planning
- Market analysis & Research
- Concept Designing
- Team assemble

Q1 **(2023) Shaping**

- Completion of white paper
- Token Development
- Website development
- Token Deployment
- Token launching

Q2

- Thunder Scale Marketing
- Advertising of Token
- Token Influencing
- Marketing Push

Q3

- Bid For creating on blockchain
- First tokenized JFT projects

Q4

- Beta Version of the Groobit
- Major Collaboration Coming
- Much More to come

THANK YOU!

Ready to start your journey with us?

Thank you for joining Groobit
